Sir:

04/01/2008 NNGUYEN2 00000025 09977585
01 FC:2501 720.00 OP

SUPPLEMENTAL PETITION FOR REVIVAL OF UNINTENTIONALLY
ABANDONED APPLICATION UNDER 37 CFR §1.137(b)

This is a Supplemental Petition under 37 CFR §1.137(b)
for revival of the above-identified patent application.

Applicants' original Petition was filed on November 8,
2007 ("Original Petition") to revive this application which
was unintentionally abandoned by applicants and applicants'
assignee. This Original Petition is still pending; however,
applicants and applicants' assignee desire to submit

~~04/01/2008 LCHAU1 00000012 09977585~~

~~01 FC:1259 30.00 OP~~

additional information relating to the abandonment of this application.

In particular, it is noted that all the elements of a grantable petition were not submitted with the Original Petition. The missing elements were:

(1) The required full payment of the Issue Fee, the non-payment of which caused the abandonment of the application; and

(2) A statement supporting the conclusion that the entire delay in payment of this Issue Fee, from the due date for payment until the filing of the grantable Petition, was unintentional.

As to item (1), it is noted that the issue fee payment in applicant's Original Petition was deficient by \$20.

As to item (2), it is noted that there are three periods to be considered:

(1) The delay in payment that originally resulted in the abandonment;

(2) The delay in filing an initial Petition to Revive the application; and

(3) The delay in filing a grantable Petition to Revive the application.

Submitted herewith is a Declaration of the applicant Chien-Tzu Hou, attesting to the fact that:

(1) Geneticware Co. Ltd. is the assignee of this application;

(2) He is the sole owner of Geneticware Co. Ltd., the assignee of this application;

(3) He did not receive, and was not aware of, the Notice of Allowance for this application until he himself checked the status of this application, some three years after the deadline for paying the Issue Fee;

(4) When he checked the status of the application, and learned that the Notice of Allowance had been issued and the application had been abandoned, he promptly filed the Original Petition to Revive.

The reason that applicant, Chien-Tzu Hou, did not receive the Notice of Allowance is that he had entrusted the prosecution of this application to a patent "service company" in Taiwan which, in turn, hired the firm of Pro-Techtor International Services in the United States to prosecute the application. The firm of Pro-Techtor International Services corresponded only with the service company in Taiwan and, for reasons not fully understood by

the applicant Chien-Tzu Hou, the Notice of Allowance was not sent to him.

The facts surrounding the failure of communication between the service company in Taiwan and the applicant Chien-Tzu Hou are set forth in his Declaration and his Statement dated November 6, 2007, which was filed with the Original Petition.

This Supplemental Petition is being filed with a check in the amount of \$20 to cover the deficiency in payment of the issue fee. The Director of Patents and Trademarks is authorized to charge the Deposit Account No. 50-0427 of the undersigned for any and all fees in connection with this patent application.

In conclusion, it is respectfully submitted that:

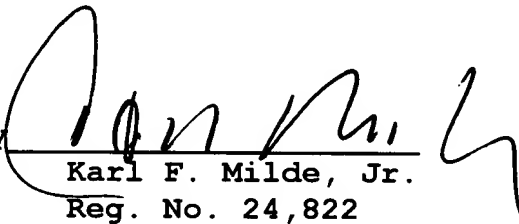

- (1) the Issue Fee is now fully paid; and
- (2) each of the three delays enumerated above were unintentional.

Applicant Chien-Tzu Hou was unaware of the Notice of Allowance of this application until he checked the USPTO web site on November 1, 2007. Within one week thereafter he filed the Original Petition to Revive this application.

The revival of this application is accordingly
respectfully solicited.

Finally, the co-applicants for this application submit
herewith is a Power of Attorney in favor of the undersigned
counsel.

Respectfully submitted,

By 
Karl F. Milde, Jr.

Sir:

DECLARATION OF CHIEN-TZU HOU

I, CHIEN-TZU HOU, hereby declare as follows:

1. I am the named co-inventor in the above-identified U.S. utility patent application ("Application") with Hsiu-Ying Hsu and, as such, I am familiar with the Application and the facts and circumstances of its filing, prosecution and abandonment.

2. I am also the named inventor and patentee in the following U.S. patents:

6,826,689
6,792,528
6,781,942
6,779,099
6,751,183
6,563,783
6,519,841
6,516,415
6,459,298
6,393,498
6,245,992
6,195,747
6,138,188
5,935,247

3. On September 20, 2001, I and my co-inventor, Hsiu-Ying Hsu, executed an Assignment of this Application, and the invention disclosed and claimed therein, to Geneticware Co., Ltd., of Road Town Tortola, Virgin Islands ("Geneticware"). This Assignment was recorded on October 12, 2001 as evidenced by the printout from the U.S. PTO web site, attached hereto as Exhibit A.

4. On November 6, 2007, I executed a "Statement" explaining the facts and circumstances relating to the abandonment of this Application. I hereby reaffirm this

Statement, but I wish to augment the facts reported in the Statement as follows:

4a. I am the sole owner of Geneticware as evidenced by the corporate certification and registration, attached hereto as Exhibit B.

4b. This Application was prepared and prosecuted by Pro-Techtor International Services of Saratoga, CA, under the direction and control of Geneticware Co., Ltd. However, the Notice of Allowance of the Application was not reported to Geneticware, or to me, or to any other officers or agents of Geneticware and I was unaware of its allowance.

4c. About November 1, 2007, I made a routine check of the status of this Application from the Public PAIR system on the U.S. PTO web site. To my dismay, I learned that a Notice of Allowance had issued on April 11, 2005, but that this application became abandoned for failure to pay the issue fee. I promptly prepared a Change of Correspondence Address and a Petition for Revival of this Application and filed these documents on November 8, 2007.

4d. Before becoming a United States citizen in 2005 and establishing my permanent residence here, I used a Taiwanese patent service company ("Service Company") to prepare and prosecute all of my patent applications. This Service Company translated documents into English, which I and my co-inventors prepared and sent to them in the Chinese language, and commissioned and worked with attorneys in the United States to file and prosecute my applications. For this Application, the Service Company hired the firm of Pro-Techtor International Services.

4e. In or about June 2002, the Service Company stopped communicating with me for no apparent reason. I eventually came to believe they were helping a large Taiwanese corporation to copy my technology, and I commissioned a local law firm to engage a legal action against them. Notwithstanding this lawsuit, which is still pending, I was unable to obtain any information from the Service Company about my pending patent applications, including this Application. I initially assumed that this Application was being properly prosecuted, since I lacked sufficient information, and I did not expect or know that this Application had been allowed until I investigated the U.S.

PTO website on or about November 1, 2007.

5. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the Application or any resulting patent issued thereon.
